

Fulacolor® XW

Colour Developer for Carbonless Systems

Product Description

- **Fulacolor XW** is a high performance reactive acid clay of exceptional whiteness designed to give excellent colour development.
- **Fulacolor XW** is compatible with all capsule technologies to produce a high definition instantaneous image. Low coarse particle content minimises abrasion and capsule bleed, and extends filter-cycles.
- **Fulacolor XW** is a non-toxic material produced from natural material and consequently has extremely low environmental impact.
